

Better Building Trade Shows

TOPICS

SHOW DATES JULY - DECEMBER 2010

VENUES

TIMBER FRAMING

Learn about common defects associated with timber framing used in sub-floor framing, the floor frame, wall frame and roof frame and see some best practice recommendations to hopefully minimise the likelihood of defective work being produced.

COMMON DEFECTS IN CONCRETE WORK

Presented by experts from the Master Concreters' Association of Queensland (MCAQ), this session identifies common concreting defects and recommends best practice construction methods to minimise these defects.

INTRODUCTION TO THE BUILDING INDUSTRY

For 1st year licensees and 4th year apprentices, this covers the role of BSA and CSQ, Building Acts, Regulations and Codes, the building approval process, defective work, dispute resolution and major risks businesses face in their first few years.

COMMON DEFECTS IN BRICK AND BLOCK WORK

Presented by Simon Kelly, a bricklayer, builder and registered training provider, this session identifies common brick and blocklaying defects and recommends best practice construction methods to assist reduce these defects.

TIMBER DECKS, WINDOW AND DOOR INSTALLATION

This presentation gives builders and contractors information on the principal causes of deck, window and door failures and best practice recommendations to avoid or minimise the likelihood of these failures.

8 Fitzgerald Esplanade

**Showtime is
4:30pm to
6.00pm**

Dates and times may be subject to change.

Trade Shows run for 1.5 hours and cover a single DVD topic from previous SuperShows. They are of interest to all licensees, especially those related to the topic being delivered. (e.g. the Timber Framing seminar should be attended by all builders, designers, certifiers and carpenters).

Trade Shows also provide an opportunity for those who have attended a SuperShow to bring or send their staff to these shorter events.

BOOKINGS email: bsaseminars@bsa.qld.gov.au • call: 1300 BSA BSA
